**TOTAL: 2,673**

Race of Death Row Prisoners and Death Row Prisoners by State Source: NAACP Legal Defense Fund, “Death Row USA” (April 1, 2019). The combined state totals are slightly higher than the reported national total. That is because a few prisoners are sentenced to death in more than one state. Those prisoners are included in each state’s totals, but only once in the national total.

MENTAL DISABILITIES

- **Intellectual Disabilities:** In 2002, the Supreme Court held in Atkins v. Virginia that it is unconstitutional to execute defendants with 'mental retardation.'
- **Mental Illness:** The American Psychiatric Association, the American Psychological Association, the National Alliance for the Mentally Ill, and the American Bar Association have endorsed resolutions calling for an exemption of the severely mentally ill.

DETERRENCE

- A report by the National Research Council, titled Deterrence and the Death Penalty, stated that studies claiming that the death penalty has a deterrent effect on murder rates are “fundamentally flawed” and should not be used when making policy decisions (2012).
- Consistent with previous years, the 2018 FBI Uniform Crime Report showed that the South had the highest murder rate. The South accounts for over 80% of executions. The Northeast, which has less than 1% of all executions, had lowest murder rate.
- According to a survey of the former and present presidents of the country's top academic criminological societies, 88% of these experts rejected the notion that the death penalty acts as a deterrent to murder. (Radelet & Lacock, 2009)

EXECUTIONS BY METHOD USED

30 states plus the US government use lethal injection as their primary method. Some states utilizing lethal injection have other methods available as backups. New Hampshire abolished the death penalty in 2019, but the law was not retroactive, leaving one prisoner on death row and the lethal injection protocol intact.

JUVENILES

- In 2005, the Supreme Court in Roper v. Simmons struck down the death penalty for juveniles. 22 defendants had been executed for crimes committed as juveniles since 1976.

WOMEN

- There were 53 women on death row as of July 1, 2017. This constitutes less than 2% of the total death row population. (NAACP Legal Defense Fund, July 1, 2017). 16 women have been executed since 1976.
PUBLIC OPINION AND THE DEATH PENALTY

A 2009 poll commissioned by DPIC found police chiefs ranked the death penalty last among ways to reduce violent crime. The police chiefs also considered the death penalty the least efficient use of taxpayers' money.

- A 2010 poll by Lake Research Partners found that a clear majority of voters (61%) would choose a punishment other than the death penalty for murder.
